ABOUT ME

I am an Industrial Designer, pursuing my Masters in Product Design at the National Institute of Design, Ahmedabad. I have completed my Bachelor in Design at Srishti School of Arts, Design and Technology, Bengaluru and was nominated for the Student Exchange Program at HTW, Berlin for my 3rd Semester at NID. I have a keen interest in designing with the directions of user-friendliness and sustainability. I enjoy working with a variety of materials, and I like hands-on work. I also like experimenting with mechanisms to make products engaging. I am a good team player and like ensuring a systematic approach while managing time and precision in my work.
